I don't know if you got these from Kelli but just in case, here they are.

There were 4 submissions:

The first was electronically for the Management Grant, Advanced Assistance Grant, Jefferson County Planning Grant and the Post Disaster Code Enforcement Grant. I don't seem to be able to locate the Jefferson County Plan signed submission letter but attached is the Word document for it.

To my knowledge no such letter exists. However, the attached Prioritization presentation was delivered to Director Gianato on December 15, 2017. This was supposed to be used to establish the order of submission. Lastly, the submission letters are written in priority order signed by Director Gianato as the Governor's Authorized Representative for the 2016 disaster.

Subject: Flood Recovery and Alliance Session - Nov. 7th

Hello -

Attached is read ahead information for the meeting tomorrow at 9 am in the Governor's Cabinet and Conference Room. Please plan to arrive a little early, as we will have breakfast available prior to the meeting.

We look forward to seeing you all.

Thank you,

Jennifer

**JEFF S. SANDY, CAMS, CFE
CABINET SECRETARY**

**JIMMY J. GIANATO
DIRECTOR**

April 6, 2018

**Ms. MaryAnn Tierney, Regional Administrator
Department of Homeland Security, FEMA, Region III
One Independence Mall, 615 Chestnut Street, 6th Floor
Philadelphia, PA 19106
Attention: Ms. Janice Barlow, Acting Division Director, FIM**

Re: FEMA-4273-DR-WV – Final Submission

Dear Ms. Tierney:

Pursuant to §206.435 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended, I find that the following Sub-Grantee applications for FEMA-4273-DR-WV Hazard Mitigation Grant Program (HMGP) funding are consistent with the State's Hazard Mitigation Administrative Plan.

I request that the Federal Emergency Management Agency review and approve the recommended applications as soon as possible and have directed our Hazard Mitigation staff to provide you with all documentation necessary for your review and approval. A listing as well as funding is shown in priority order in the attached document. We have also included an attachment that lists whole projects and individual properties to be used for oversubscription. This is our final submission for this funding prior to the Period of Availability deadline of April 20, 2018.

The State would also like to request your consideration for our use of Global Match derived from the Community Development Block Grant – Disaster Recovery (CDBG-DR) for projects outside of the designated counties for this disaster and use of the coordinated match in CDBG-DR for projects inside of the designated counties. We would also utilize the Governor's Contingency Fund should a shortfall of the overall twenty-five percent Non-Federal share occur. The State acknowledges our responsibility in accordance with the requirements of the programs.

Thank you and your staff for the assistance they have provided our State as we have worked through this process and the development of this application.

Should you have any questions, or need additional information regarding this matter, please do not hesitate to contact Brian Penix, State Hazard Mitigation Officer, at 304-957-2572 or by email at brian.m.penix@wv.gov .

Sincerely,

A handwritten signature in blue ink, appearing to read "Jimmy Gianato".

Jimmy Gianato
Governor's Authorized Representative

Ms. MaryAnn Tierney, Regional Administrator
Department of Homeland Security, FEMA, Region III
One Independence Mall, 615 Chestnut Street, 6th Floor
Philadelphia, PA 19106
Attention: Ms. Janice Barlow, Acting Division Director, FIM

Dear Ms. Tierney:

Pursuant to §206.435 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended, I find that the following Sub-Grantee applications for FEMA-4273-DR-WV Hazard Mitigation Grant Program (HMGP) funding are consistent with the State's Hazard Mitigation Administrative Plan.

I request that the Federal Emergency Management Agency review and approve the recommended applications as soon as possible, and have directed my Hazard Mitigation staff to provide you with all documentation necessary for your review and approval of this project.

This is our third submission for this funding, and we anticipate there will be several more prior to the Period of Availability deadline of March 22, 2018.

JIM JUSTICE
GOVERNOR

JEFF S. SANDY, CAMS, CFE
CABINET SECRETARY

JIMMY J. GIANATO
DIRECTOR

December 18, 2017

Ms. MaryAnn Tierney, Regional Administrator
Department of Homeland Security, FEMA, Region III
One Independence Mall, 615 Chestnut Street, 6th Floor
Philadelphia, PA 19106
Attention: Ms. Janice Barlow, Acting Division Director, FIM

Dear Ms. Tierney:

Pursuant to §206.435 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended, I find that the following Sub-Grantee applications for FEMA-4273-DR-WV Hazard Mitigation Grant Program (HMGP) funding are consistent with the State's Hazard Mitigation Administrative Plan.

| Community Name | County | Project Type | Number of Structure | Project Cost | Federal Share | Non-Federal Share | Benefits | BCR |
|-----------------------|------------|-----------------------|---------------------|-----------------|---------------|-------------------|------------------|-------|
| Clintonville | Greenbrier | Generator Fire Dept. | 1 | \$ 47,000.00 | \$ 35,250.00 | \$ 11,750.00 | \$ 696,443.00 | 14.82 |

TOTAL PROJECTS: 20 **TOTAL: \$5,870,430.00**
FEDERAL SHARE: \$4,402,823.00
NON-FEDERAL SHARE: \$1,467,607.00
CDBG-DR COVERED: \$860,101.00
GOVERNOR'S CONTINGENCY FUND COVERED: \$607,506.00

I request that the Federal Emergency Management Agency review and approve the recommended applications as soon as possible, and have directed my Hazard Mitigation staff to provide you with all documentation necessary for your review and approval of this project.

This is our initial submission for this funding, and we anticipate there will be several more prior to the Period of Availability deadline of December 22, 2017.

Should you have any questions, or need additional information regarding this matter, please do not hesitate to contact Brian Penix, State Hazard Mitigation Officer, at 304-957-2572 or by email at brian.m.penix@wv.gov .

Sincerely,

A handwritten signature in black ink, appearing to read "Jimmy Gianato", with a stylized flourish extending to the right.

Attachments: FEMA-4273-DR-WV Prioritization.pptx

To my knowledge no such letter exists. However, the attached Prioritization presentation was delivered to Director Gianato on December 15, 2017. This was supposed to be used to establish the order of submission. Lastly, the submission letters are written in priority order signed by Director Gianato as the Governor's Authorized Representative for the 2016 disaster.

Hello -

Attached is read ahead information for the meeting tomorrow at 9 am in the Governor's Cabinet and Conference Room. Please plan to arrive a little early, as we will have breakfast available prior to the meeting.

We look forward to seeing you all.

Thank you,

Jennifer

FEMA-4273-DR-WV HAZARD MITIGATION

PRIORITIZATION 12/15/2017

CRITERIA

- Governor set priorities
 - Infrastructure
 - Economic Development
 - Housing
- Priorities changed with the election of a new governor
- Late date of the change has had a profound effect on project prioritization
- Application due date is December 22, 2017
- Extension request is being evaluated by FEMA. If approved, the new deadline will be March 2018

FEDERAL AND NON-FEDERAL SHARE

- The Hazard Mitigation Grant Program (HMGP) is a cost sharing program at 75% Federally funded, 25% Non-Federally funded available to communities statewide
- Projects within the Designated Counties for FEMA-4273-DR-WV are eligible to have the Non-Federal Share reduced to zero (0) by utilizing the Community Development Block Grant- Disaster Recovery (CDBG-DR) set aside
- Projects outside the Designated Counties are obligated to have the 25% Non-Federal Share funded either by State, Local or other sources identified at the time of application

NO ELIGIBLE MITIGATION ACTIVITIES FOR ECONOMIC DEVELOPMENT

- There are no direct Mitigation activities designed to address economic development
- There are indirect activities that could affect economic development but further study needs to be conducted for definitive proof
 - Increasing resiliency for housing and infrastructure decreases the need for extensive recovery and increases the likelihood that employers will remain with less down time for recovery

TYPES OF ELIGIBLE MITIGATION PROJECTS SUBMITTED

- Acquisition / Demolition – The act of acquiring and demolishing a structure deed restricting the resulting open space in perpetuity
- Elevation – The act of lifting a structure to the floodplain ordinance level
- Mitigation Reconstruction – The act of demolishing a structure and rebuilding a new structure in compliance with building code and floodplain ordinance
- Water projects – Increasing the capacity of waste, potable and storm water systems to handle increased use (Deferred maintenance is a huge issue with these type projects)
- Generators – Providing a permanent generator for critical facilities to mitigate frequent power outages
- 5% Initiative projects – Projects that have a proven mitigating effect but no means exist for developing the cost effectiveness required for standard HMGP
- 7% Planning Projects – Projects whose deliverable results in a mitigation plan required for submittal to HMGP

LIMITATIONS

- All projects not submitted under the 5% and 7% initiatives MUST demonstrate cost effectiveness at the time of submittal
- Deferred maintenance is a disqualifying factor
- 5% Initiative is not to be used as a work around for the cost effectiveness requirement
- HMGP is a voluntary program on both the participant and community level
- Complex 2-phase projects (mostly water) require extensive engineering prior to application submittal
- Projects MUST have a Benefit Cost Ratio (BCR) of 1.0 or greater to be considered cost effective
- Acquisition / Demolition is the only allowed alternative for floodway structures
- \$69,667,311.00 (\$52,250,438.00 Federal Share, \$17,416,873.00 Non-Federal Share) Total funding available
- \$250,851.57 (\$193,982.98 Federal Share, \$56,868.59 Non-Federal Share) already expended

SUMMARY

- CDBG-DR Matched Infrastructure Projects
 - 6 Water Projects totaling \$15,501,025.00
- CDBG-DR Matched Generator Projects
 - 11 Generator Projects totaling \$3,291,152.00
- CDBG-DR Matched Reconstruction Projects
 - 13 Reconstruction Projects totaling \$7,149,580.00
- CDBG-DR Matched Elevation Projects
 - 5 Elevation Projects totaling \$1,921,390.00
- CDBG-DR Matched Acquisition / Demolition Projects
 - 42 Acquisition / Demolition Projects totaling \$26,267,405.00

SUMMARY (CONTINUED)

- Non-CDBG-DR Matched Infrastructure Projects
 - 10 Infrastructure Projects totaling \$33,566,559.00 with \$8,391,639.75 required for Non-Federal Share
- Non-CDBG-DR Matched Generator Projects
 - 9 Generator Projects totaling \$2,579,278.00 with \$644,819.50 required for Non-Federal Share
- Non-CDBG-DR Matched Reconstruction Projects
 - 8 Reconstruction Projects totaling \$5,430,100.00 with \$1,357,525.00 required for Non-Federal Share
- Non-CDBG-DR Matched Elevation Projects
 - 2 Elevation Projects totaling \$728,746.00 with \$182,186.50 required for Non-Federal Share
- Non-CDBG-DR Matched Acquisition / Demolition Projects
 - 8 Acquisition / Demolition Projects totaling \$3,890,530.00 with \$972,632.50 required for Non-Federal Share

Subject: PDC Strategy Amendment

Brian & Lirerose,

Please see the attached finalized documents and the email description below. This letter will be sent to PDC 2 & 3. PDC 1 will receive a separate email with only the sample strategy language, as they are in the process of updating PDC 4 already has the language. I believe this email should come directly from Lirerose as the State Hazard Mitigation Planner with a cc Brian and myself. Please let me know if this works for the both of you.

Kara & Chris,

This is a follow up to the initial discussions that we, WVDHSEM & FEMA, have had with you in regards to Hazard Mitigation Plan amendments for your currently approved plan. Please see the attachments above. The first is example language of the proposed strategy amendment. The second is the sample letter you will request your counties to sign and send back to you. These both have been constructed as template language. It is suggested that each PDC have a call with their counties in order to explain the amendment and its implications. If you would like to us to be on that call, just let us know and we can attend. For fastest amendment approval, please see the below steps.

- PDC will provide a copy of the amendment language and sample letter to each County to ask if the amendment strategy is acceptable
- If acceptable, the County will send back the signed amendment request letter to the PDC
- The PDC will send up an official request Packet of their own to the State

- PDC Packet to State:
 - Official letter from the PDC requesting approval of the amendment strategy
 - Signed County Letters
 - Copy of the updated strategy language incorporated into the Hazard Mitigation Plan (CD or electronic copy will suffice)
- The State will forward the PDC packet/request to FEMA for approval
- FEMA will review and approve

If you have any questions about this process please feel free to contact myself or Matt McCullough.

Thanks, Lirerose

Russell,

My apologies for the delay in responding.

I would say no more than 30 minutes to go over the background, expectations and intended outcomes. If this works for everyone, I will send out the calendar invite and conference call information this afternoon.

Thanks, Matt

Hello all,

We rescheduled our SRO meeting that was supposed to take place on Thursday, so that time slot should be open for Mr. Farkas, Mr. Penix, and I. Would Thursday March 15 at 10AM work?

How long do we need for this meeting?

Thanks,

Russell Tarry

Matt,

Thanks. The only time I am available this week would be Friday. I am available the 19, 21, 22, 23.

I am also going to send this to Russell Tarry who plays a major role in SRO activities. The SRO is located within the Department of Commerce.

Russell should be included.

Thanks,

Brian

Subject: Re: SRO-Risk Reduction Consultation

Good Morning Mr. Farkas-

My name is Matt McCullough and I am a Community Planner with FEMA Region III's Risk Analysis Branch. I work with Brian Penix to develop and approve West Virginia's State Hazard Mitigation Plan. As part of this plan, there is a requirement to meet annually under the name of a State Risk Reduction Consultation.

Mr. Penix advised me that as part of this year's Consultation, we should include the newly formed State Resiliency Office. It would be great to schedule a meeting to orient you to the purpose and outcomes of this annual consultation with the State.

I have included West Virginia's State NFIP Coordinator, Kevin Sneed, and the Region III Risk Analysis' communication support staffer, Terence Milstead.

If you're schedule allows, please provide a few times you are available this week. I can provide the conference bridge and pin.

Thanks, Matt

DRAFT

Risk Reduction Consultation

The purpose of the Risk Reduction Consultation is for (INSERT NAME OF STATE OR DISTRICT) and FEMA to strategize about the use of resources to enable efficient collaboration on programs, project delivery, and risk reduction. Through this process, both (INSERT NAME OF STATE OR DISTRICT) and FEMA will review priorities, evaluate the status of reaching those priorities throughout the year, and identify the best way to leverage existing resources for implementation. Annually, partners from (INSERT NAME OF STATE OR DISTRICT) and FEMA can build upon the priorities identified in previous Risk Reduction Consultations and build progress towards risk reduction.

Objectives

At the Risk Reduction Consultation, (INSERT NAME OF STATE OR DISTRICT) and FEMA plan to:

- Highlight successes and progress towards risk reduction.
- Review realities experienced while implementing priorities and hazard mitigation strategies.
- Validate identified priorities for risk reduction.
- Identify additional strategies or resources needed to implement risk reduction priorities.

Agenda

9:00 a.m. Welcome and Overview

9:30 a.m. Review of Priorities

- *Validate identified priorities and discussion additional priorities for risk reduction.*
- *Vote on top priorities. Review results and determine which priorities will be reviewed in break-out. Some priorities may be high, but clear-cut and not require as much discussion.*

10:20 a.m. Break

10:30 a.m. Break-Out Sessions on Top Priorities

- *The number of break-out sessions should be linked to attendance.*

12:00 p.m. Lunch

1:00 p.m. Continue Break-Out Sessions on Top Priorities

2:00 p.m. Break

2:15 p.m. Break-Out Session Reports

3:00 p.m. Gap Analysis

- *Compare where current coordination with where our implementation priorities are set. What is needed to implement priorities as discussed today?*

3:45 p.m. Summary

4:00 p.m. Adjourn

Appointment Title: SRO Action Officer meeting
Organizer: Trautwein, Hannah
Attendees: Trautwein, Hannah; Amy Pauley (WVMilitaryAuthority) ; Brian Penix (WVDHSEM) ; Carrie Robinette (carrie.robinette@fema.dhs.gov); Danny Bennett (Danny.A.Bennett@wv.gov); Donnie Haynes (DHHR) ; Farkas, Brian (bfarkas@wvca.us); Gregory Myers (Gregory.S.Myers@wv.gov); Hannah Trautwein (WVDO) ; Jeff Wood (WVNG) ; Kevin Sneed (Kevin.L.Sneed@wv.gov); Russell W Tarry (Russell.W.Tarry@wv.gov); Rusty Joins (Rusty.T.Joins@wv.gov); Tony Frame (WVMilitaryAuthority) ; Young, James (james.young@fema.dhs.gov); Scott Eubank; Greg Myers

12 APRIL 2017

2018 WEST VIRGINIA STATEWIDE STANDARD HAZARD MITIGATION PLAN

Meeting Agenda

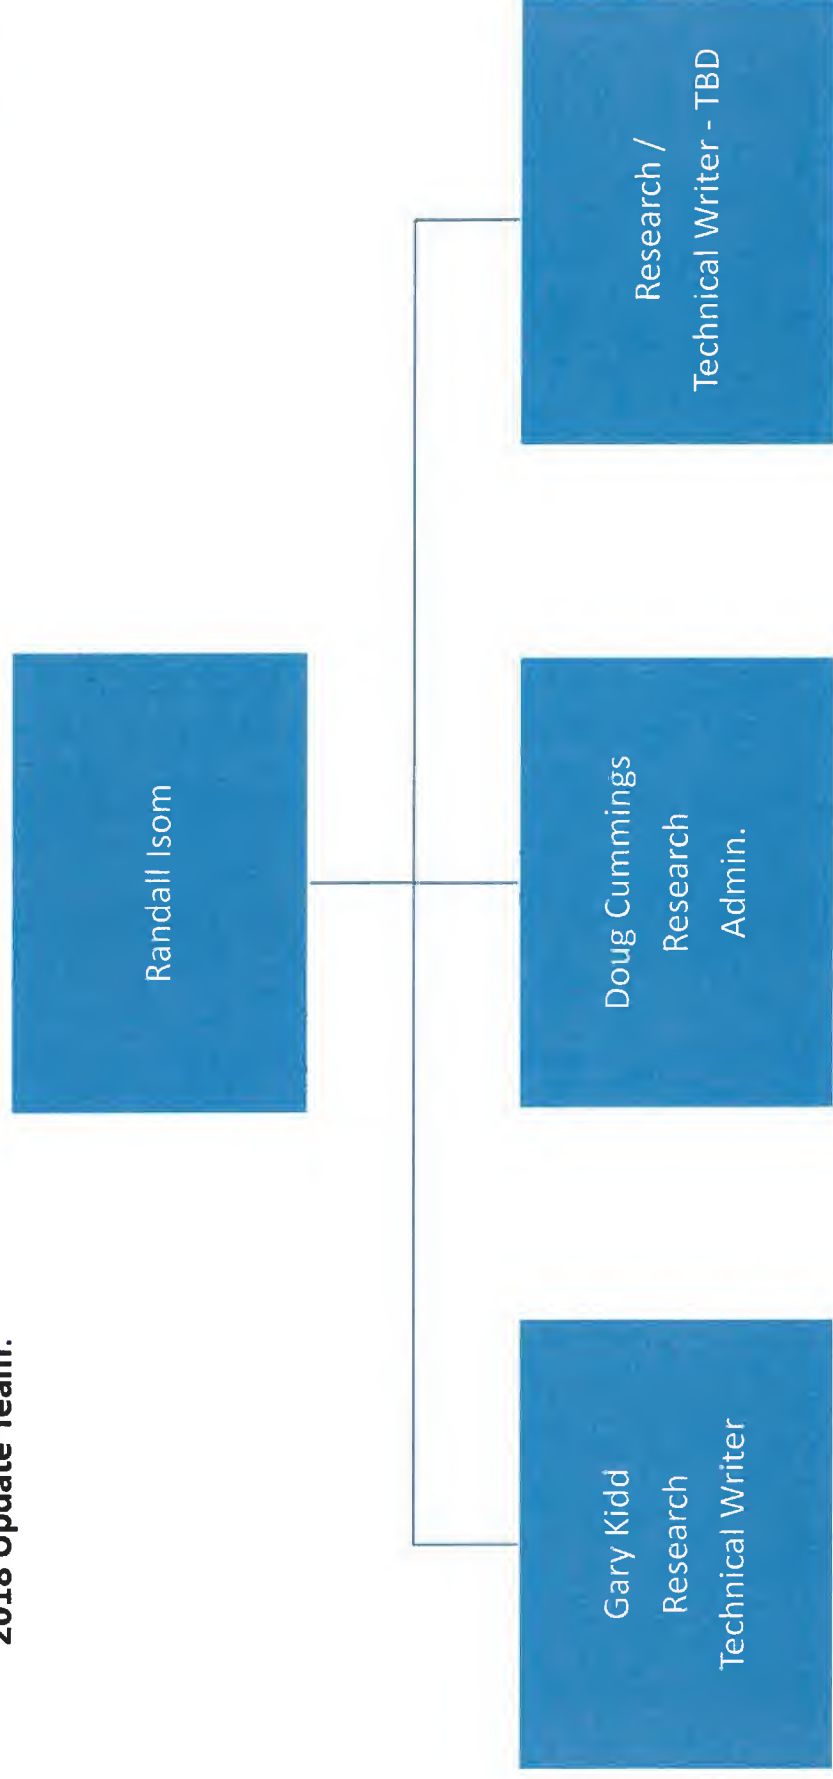

- **Introductions**
- **Discussion of 2013 Plan**
- **Discussion of Plan Update Methodology**

2018 WEST VIRGINIA STATEWIDE STANDARD HAZARD MITIGATION PLAN

2018 Update Team:

2018 WEST VIRGINIA STATEWIDE STANDARD HAZARD MITIGATION PLAN

Discussion of 2013 Plan:

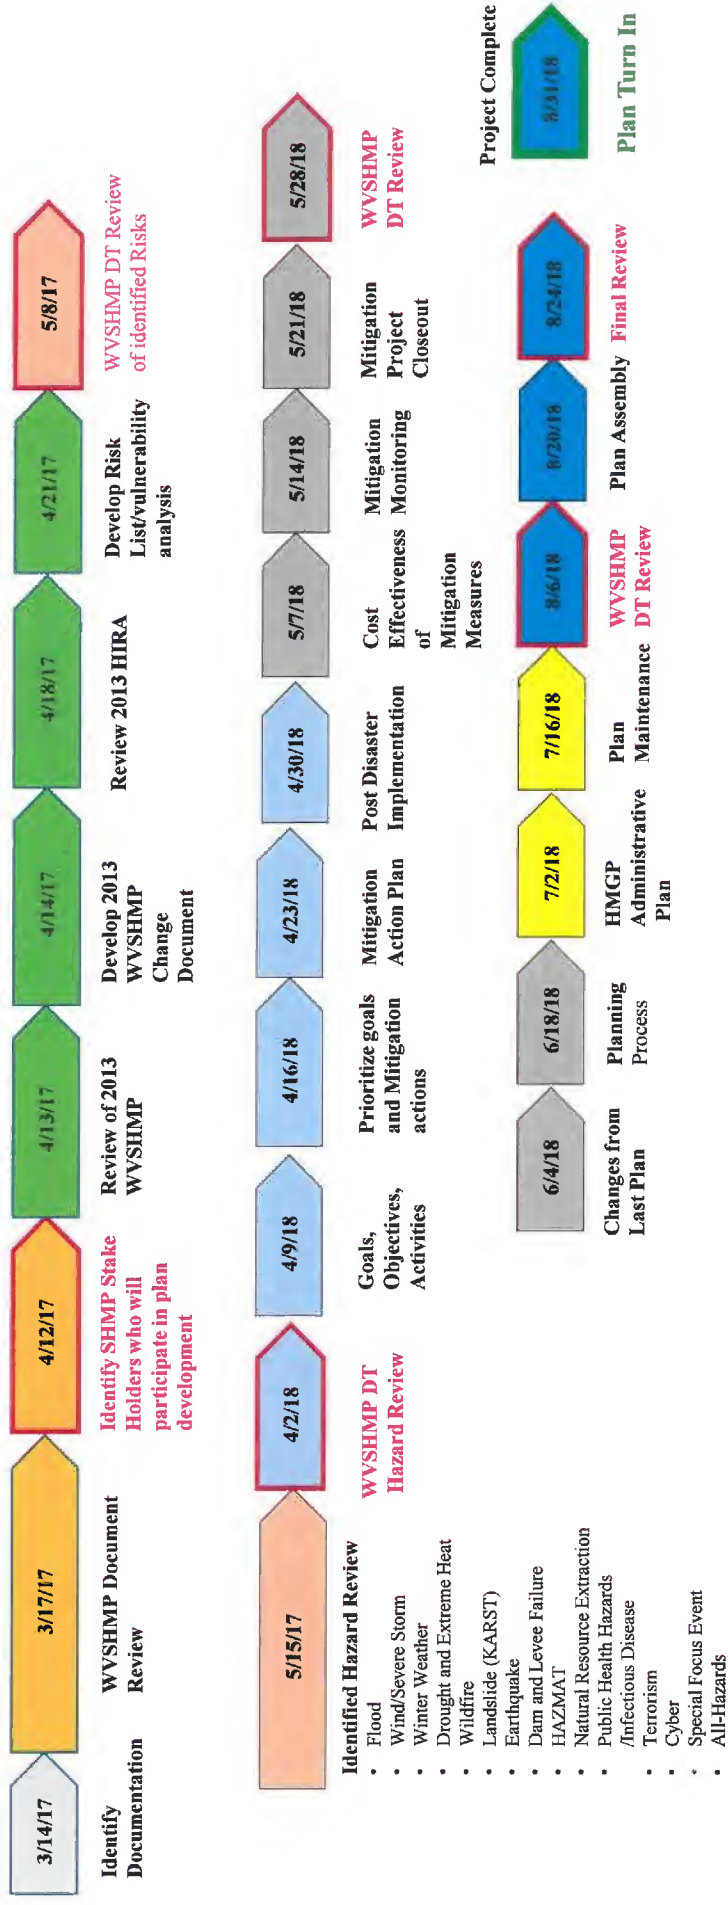

- List of desired WV changes to plan
 - 300 pages
 - Executive Summary with supporting sections
 - Update the Hazard list
 - Meet EMAP Standard
- Use of LEPC II as Guiding Council during update
 - 2013 Plan identifies the Hazard Mitigation Council as the lead – Recommend using the LEPC II as guiding council
- Updated Time Line
 - Original time line was based on a JAN 2018 completion, after meeting with FEMA, timeline undated to reflect a AUG 2018 completion

2018 WEST VIRGINIA STATEWIDE STANDARD HAZARD MITIGATION PLAN

TIME LINE FOR COMPETITION

Project Start

2018 WEST VIRGINIA STATEWIDE STANDARD HAZARD MITIGATION PLAN PLAN UPDATE METHODOLOGY

Development of the hazard mitigation plans will be in five phases:

- Phase 1 – Organize and Review
- Phase 2 – Update the Risk Assessment
- Phase 3 – Engage the public
- Phase 4 – Assemble the updated plan
- Phase 5 – Plan adoption

2018 WEST VIRGINIA STATEWIDE STANDARD HAZARD MITIGATION PLAN

Discussion of 2018 Methodology:

- Phase 1 – Organize and Review
 - Currently 20% complete – will begin organizing into the South Carolina format
 - Plan will be reorganized into a Executive Summary with supporting sections
 - 2013 Plan has a lot of “filler” information that will be removed in the update
 - Plan will be structured the same as South Carolina – 301 pages.
 - EMAP Statement - This includes the State Hazard Mitigation Plan. Therefore, this plan was designed to meet the following EMAP standards that apply to hazard mitigation plans (EMAP Standard 4.3: Hazard Identification, Risk Assessment and Consequence Analysis; and 4.4: Hazard Mitigation). Notations are made throughout this plan to indicate where EMAP standards have been addressed.

2018 WEST VIRGINIA STATEWIDE STANDARD HAZARD MITIGATION PLAN

Discussion of 2018 Methodology:

- Phase 2 – Update the Risk Assessment
 - *WVU to update the existing Risk Assessment with “updated” Hazards – will use South Carolina format*
- Mitigation Goals – Will need WVDHSEM to provide the Goals and LEPC II to review

2018 WEST VIRGINIA STATEWIDE STANDARD HAZARD MITIGATION PLAN

Discussion of 2018 Methodology:

- Phase 3 – Engage the Public
 - Propose 4 engagements
 1. *LEPC II Review*
 2. *Presentation and Questionnaire at SERC Conference*
 3. *Presentation and Questionnaire at LEPC Meeting*
 4. *Questionnaire on WVDHSEM site for public comment*

2018 WEST VIRGINIA STATEWIDE STANDARD HAZARD MITIGATION PLAN

Discussion of 2018 Methodology:

- Phase 4 – Assemble the Update

2018 WEST VIRGINIA STATEWIDE STANDARD HAZARD MITIGATION PLAN

Discussion of 2018 Methodology:

- Phase 5 – Plan Adoption

DR-4273 HMGP/Global Match Meeting

Wednesday, November 7, 2018

1:30pm

Attendees were:

- Mike Todorovich – WVDHSEM
- Brian Penix – WVDHSEM
- Kelli Batch – WVDHSEM
- Carrie Robinette – FEMA
- Susan Jones - FEMA
- Joshua Storey – VOAD
- Cristina Pop – FEMA
- Ricky Snodgrass – FEMA
- Austen Balthazar – FEMA
- Stephanie Everfield – FEMA
- Captain Justin McIntire – WVNG
- Specialist Chandler – WVNG
- Amy Pauley – WV SRO

1) Overview of Global Match Process

Carrie Robinette started off the call by asking if there were any questions regarding the Global Match process in general. Hearing none, moved on to item number 2 on the agenda.

2) Review and Consolidation of Global Match Property List

Carrie Robinette indicated that this was a work in progress to get the list consolidated. Carrie asked Joshua Storey to discuss the current number of reconstructions active under the WVNG?

Joshua Storey indicated that he took the total number of reconstructions and rehabilitations active and it totaled to 149. There are 73 confirmed reconstructions out of the 149 at this time. Josh indicated that he would be sending out that list of properties that afternoon.

Carrie discussed the list of 749 properties that was initially submitted as part of the Global Match application and indicated that it was a priority to get that list consolidated to what is still active in the WV Rise Program. **Proposed a work session to consolidate this list. Proposed date is November 16, 2018 at 9:00 a.m. Carrie is going to send out a meeting invite.**

Carrie then asked Brian to discuss his next steps once the list is consolidated. Brian indicated that he would have to send a letter to FEMA formally withdrawing the properties that are eliminated off of the list of 749 properties. FEMA will be responsible for taking care of the rest of the process. Susan indicated that the properties were not actually entered into FEMA's NEMIS system yet, therefore there is nothing specifically to "withdraw" but we will have to have a letter that indicates which properties are not going to be included.

Mike asked what was needed in terms properties and the amount of Global Match cost needed. Carrie indicated that there was not a set number of properties. Brian indicated that the estimate for Global Match is \$10 million.

Mike also asked if we are tracking the financial side. Carrie showed Mike a copy of the dashboard and pointed out the financial section where the non-federal share for HMGP will be tracked.

Stephanie Everfield asked, from an EHP perspective, that when a property is submitted to FEMA EHP, will the complete WV Rise EHP Review be included for every property? And for each project, will it only be Global Match properties? The answer is "Yes" to all of the above. The project application submitted for review to FEMA EHP will include both the complete Tier I and Tier II reviews completed by the WV Rise program.

Captain McIntire indicated that he was not aware that we would need the Tier I Review. Rick Snodgrass indicated that because the Tier I is referenced in the Tier II review and because the consultations for the Endangered Species Act (ESA) was done as part of the Tier I (county level) review FEMA EHP needed that documentation.

Carrie indicated that Joshua Storey had provided a complete Tier II review and, based on prior meetings, a copy of the ESA concurrence letter from U.S. Fish and Wildlife. Carrie and Rick then both indicated that a copy of the letter from the State of West Virginia to U.S. Fish and Wildlife requesting that consultation was needed. Josh and Maj. McIntire indicated that they would try and track down the letter through Jennifer Ferrell with the West Virginia Department of Commerce.

Stephanie then asked if there would be the option of reaching back to the contractors and WV Rise EHP if there are any questions. Maj. McIntire said he could provide the contact information for Marshall University and the sub-contractor being used for the historical preservation review.

3) HMGP Eligibility Requirements

Carrie indicated that there was an outstanding question for follow-up on from the October 3, 2018 meeting regarding the current construction standards being used by WV Rise? Captain McIntire indicated that they are following the 2015 International Building Codes (IBC) along with other applicable state codes. Maj. McIntire indicated there are even elements from the 2018 International Building Codes that the contractors may be adopting as well but at a minimum will meet the 2015 ICB. Maj. McIntire said it would depend on the county requirements as far as standards applied. Brian asked that if the version of the IBC vary, that the version be identified somewhere in the paperwork.

Maj. McIntire said his understanding is that each property will be going through the entire case management process with VOAD before it's assigned to a contractor. It will then go to WVDHSEM/FEMA for review then go back to VOAD so a Notice to Proceed can be issued to the WVNG to proceed with construction.

Maj. McIntire indicated that some communities/counties would not be issuing Certificates of Occupancy. His question is, if the WVNG needs to do a Certificate of Occupancy, they can do that since they are completing the final construction check-list. Maj. McIntire said regardless of whether or not a Certificate of Occupancy is issued, a final inspection will be performed. Susan asked who would be

signing off on the final inspection. Both Susan and Carrie indicated that as long as the person signing off of the inspection was a licensed Building Official it should be fine.

Mike indicated that WVDHSEM will have something in the files that indicate who and the credentials of the person(s) signing off of the "Certificate of Occupancy."

Maj. McIntire indicated that the WVNG will create a Certificate of Occupancy for each property and indicate which version of the building codes will be applicable.

Maj. McIntire then indicated that his concern was the review time once it gets into the WVDHSEM and FEMA queue and that he was told that review needed to be one day. Brian and Carrie indicated that one day is not going to happen. The review process was discussed with both WVDHSEM and FEMA indicated that a joint review could possibly be done to be as efficient as possible but it will be more than one day.

Josh had already provided at least one package (for Spence) that Kelli Batch has reviewed but Brian needs to look at Kelli's comments. Carrie indicated that one of the things that was first noticed is that the plans for what was going to be rebuilt were not provided and that the homeowners name was spelled differently in three different places. Carrie, Susan and Brian all indicated that catching those things before the package comes to WVDHSEM and FEMA it will cut down on the review times.

Maj. McIntire made the suggestion that along with the address, the latitude and longitude should be included as they are always accurate and could be verified using the WV Flood Tool. Rick added that for EHP purposes, they prefer the latitudes and longitudes as well.

Based on a question from Maj. McIntire, Brian explained the documents needed and showed him a copy of the checklist presented during the October 3, 2018 meeting. VOAD and Maj. McIntire indicated that the checklist would be put in the front of each property file.

4) Dashboard for use for Weekly Review

Carrie indicated that a version of the dashboard was submitted but because it still was bringing up more questions rather than answers it was not sent out. Carrie is going to work with VOAD to continue to fine tune the information on the dashboard. Carrie said that once the property list is narrowed down the dashboard will be easier to use and fill in on a bi-weekly basis.

5) Time & Date for Next Meeting

There will not be another meeting the month of November due to the timing of the Thanksgiving holiday. Carrie will send out proposed dates for the first of December 2018.

DR-4273 HMGP/Global Match Meeting**Meeting Agenda**

**1:30 p.m.
December 12, 2018
1-800-320-4330 / PIN: #555834**

| Agenda Item | Note/Actions |
|---|--|
| 1. Overview of the Global Match Process | *Time for general questions regarding the global match process. |
| 2. Review and Consolidation of Global Match property list. | *Need to continue to revise and condense current list of 749 properties against those currently active under the WV Rise Program. |
| 3. HMGP Eligibility Requirements | *Revised Flow Charts. Questions? *Comments regarding the Spence Property Review from WVDHSEM. *Properties ready for WVDHSEM Review? |
| 4. Dashboard for use for Weekly Review | *Summary showing status of active reconstructions. |
| 5. CDBG-DR Review of Approved HMGP Applications | *Discuss Coordinated Match *Process for WVDHSEM/FEMA approved HMGP applications to be reviewed for compliance with CDBG-DR Requirements. *This is otherwise known as Coordinated Match using the line item \$12.4 million for mitigation in the CDBG-DR Action Plan. |
| 6. Time and Date for Next Weekly Call | *January 9, 2018 – In-Person Briefing |

Appointment Title: WV Hazard Mitigation Plan mitigation Actions meeting NEW MEETING TIME

Organizer: Pauley, Amy S

Attendees: Pauley, Amy S; Bryson, Lonnie R; Batch, Kelli R; Farkas, Brian; julie.a.alston@hud.gov; McCullough, Matthew; Joseph.K.Trimboli@usace.army.mil; Stephen.D.Oleary@usace.army.mil; Eric.Hopkins@mail.wvu.edu; Maneesh.Sharma@mail.wvu.edu; rperry@lccwv.us; Polen, Terry L; Keaton, Tim W; carico@marshall.edu; Lipiecki, Kathryn; Sneed, Kevin L; Pierson, Robert; Dunn, Margaret; Robinette, Carrie; Sobota, Richard; Davis-Jenkins, Heather; Pop, Cristina; Mittman, Tamara; Leah Corry; Matthew Wagner; Terence Milstead; Todorovich, Michael L; Stottlmyer, Dennis O; Griffith, Jessica L; Pickens, Mary Jane; Tyree, Kenneth E; jamie.bielinski@noaa.gov; Young, James; Kurt Donaldson; Penix, Brian M; Isom, Randall D COL USARMY NG WVARNG (US; Joins, Rusty T; Cook, Barry L; Stone, Sherrie L NFG NG WVARNG (US; Jeremy C Wolfe (jeremy.c.wolfe@wv.gov); McIntire, Justin R MAJ USARMY NG WVARNG (USA; Patterson, Steven D; Jackson, Walter G; Andrea Landau

Location: WVNG Armory located at 1703 Coonskin Dr. Charleston, WV 25311 Conference Rm

Start Time: 1/14/2019 2:00:00 PM -0500

End Time: 1/14/2019 3:30:00 PM -0500

Reminder Time: N/A

Reminder Set: false

Duration: 1 hours 30 minutes

Is Recurring: false

Reccurance Type: Not

Reccurance Pattern:

Response Status: 5

Busy Status: Tentative

New Meeting Time

The 2018 WV Hazard Mitigation Plan was submitted and approved in October of 2018. It contains descriptions and analysis of hazards that impact the state, and a list of mitigation goals and actions that should be accomplished within the 3-5 year range of the Plan. The State Resiliency Office is required to monitor and aid in compliance.

For each of the Mitigation Action Sheets a list of potential implementation schedule and current status was developed. The SRO should work responsible agencies to update implementation schedule and status bi-annually.

Appendix D in the 2018 WV Hazard Mitigation Plan (HMP) outlines Action assignments, and each agency, organization or grants program involved. The HMP also calls for a January meeting, so we have set up a meeting on January 14, 2019 at 2:00pm.

I will have copies of the SHMP Mitigation Action Sheets available. The discussion will cover:

1. Current status of mitigation actions
2. Ongoing monitoring,
3. State Resiliency Office support
4. Proposed mitigation timeline.

In order to reduce the number of meetings, we will combine this meeting with the FEMA Risk Reduction Consultation call. West Virginia Adjutant General - Major General Hoyer will open the meeting to discuss recent changes, then WV DHSEM Director, Mr. Mike Todorovich will move through the discussion topics. Mr. Matthew McCullough (FEMA) will follow by talking about the intended outcomes of the Risk Reduction Consultation

Please read through the attached report from the last Risk Reduction Consultation, if you will be joining us for the Risk Reduction Consultation portion.

We will meet at the WVNG Armory located at 1703 Coonskin Drive, Charleston, WV 25311. For those of you that are unable to attend in-person, the following can be used to dial into the meeting:

Phone: (800) 320-4330

PIN Number: 555834

Please let me know if you, or another representative for your agency, will be attending in person, as we will need to get a list to the gate. If you have any questions, do not hesitate to call or email.

Overview

On September 26, 2018, the State of West Virginia and Federal Emergency Management Agency (FEMA) Region III completed the 2018 DC Risk Reduction Consultation. The purpose of the Risk Reduction Consultation is for the State and FEMA to strategize how resources can enable efficient collaboration on programs, project delivery, and risk reduction. Through this process, both the State and FEMA review priorities, evaluate the status of reaching those priorities throughout the year, and identify the best way to leverage existing resources for implementation. Partners from the State and FEMA can build upon the previous year's priorities and progress towards risk reduction. This report will be used to guide their ongoing collaboration to advance mitigation goals.

Attendees

The following table lists attendees from the 2018 WV Risk Reduction Consultation.

| Name | Agency |
|------------------|---|
| Bob Pierson | FEMA Region III |
| Carrie Robinette | FEMA Region III |
| Cristina Pop | FEMA Region III |
| James Young | FEMA Region III |
| Kathryn Lipiecki | FEMA Region III |
| Matt McCullough | FEMA Region III |
| Nancy Carpenter | FEMA Region III |
| Rich Sobota | FEMA Region III |
| Julie Alston | Housing & Urban Development |
| George Carico | Marshall University |
| Steve O'Leary | U.S. Army Corps of Engineers |
| Lisa Sharp | U.S. Department of Agriculture, Rural Development |
| Amy Pauley | West Virginia State Resiliency Office |
| Eric Hopkins | West Virginia University |
| Kurt Donaldson | West Virginia University |
| Maneesh Sharma | West Virginia University |
| Patrick Kirby | West Virginia University |
| Brian Farkas | WV Conservation Agency |
| Brian Penix | WV Division of Homeland Security & Emergency Management |
| Kelli Batch | WV Division of Homeland Security & Emergency Management |
| Kevin Sneed | WV Division of Homeland Security & Emergency Management |
| Terry Polen | WV Division of Homeland Security & Emergency Management |
| Tim Keaton | WV Division of Homeland Security & Emergency Management |
| Terence Milstead | <i>Resilience Action Partners</i> |
| Leah Corry* | <i>Resilience Action Partners</i> |

*Post-Consultation Report Author

West Virginia Risk Reduction Priorities

2017 Risk Reduction Consultation Priorities

The consultation began with the group discussing the State's previously identified 2017 priorities. Those priorities included the following:

Stagger local mitigation plan
submission timelines

Champion new floodplain
management quick guide/help
with roll-out

Strengthen trainings, hone messaging at trainings, and improve
outreach efforts*

**A SurveyMonkey was distributed prior to the Risk Reduction Consultation to identify the top State priority, as indicated by an asterisk in the above table.*

During the meeting, the group reaffirmed the three 2017 priorities and added a fourth one for 2018:

Conduct project-specific outreach
to communities and outreach that
publicizes the nature and location
of existing data within the West
Virginia Hazard Mitigation Flood
Tool.

Appendix A: Meeting Minutes

Introduction

Matt McCullough, FEMA Region III, provided opening remarks on why FEMA conducts Risk Reduction Consultations and what topics they should cover. The Risk Reduction Consultation provides the State and FEMA an opportunity to talk about priorities and administrative capabilities for Hazard Mitigation Plans (HMPs), as well as a pathway to connect with different agencies. Next, Terence Milstead, *Resilience Action Partners*, guided the group through an overview of the day's agenda.

Review of Risk Reduction Priorities

Following opening remarks, Terence Milstead led a group discussion on the previously identified State risk-reduction priorities and their current progress.

- Stagger local mitigation plan submission timelines
 - Brian Penix, West Virginia State Hazard Mitigation Officer, shared background information on this priority. Previously, there was a year where all local and State plans expired on the same day. To monitor funding opportunities, it became a priority of the State to stagger the development of plans in coordination with regional Planning District Commissions (PDCs).
 - To enforce this, the State gave more time to communities and regions to develop comprehensive, non-rushed plans.
 - Matt McCullough added that many PDCs have embraced this approach to plan development, and they developed new scopes of work to enhance risk assessment beyond minimum requirements.
 - Brian Penix shared that the State Resiliency Office (SRO) will play a large role in plan integration. The State is conducting a cross-disaster analysis to consider mitigation during plan development, which will help guide the SRO.
- Champion new floodplain management quick guide and help with rollout
 - Kevin Sneed, West Virginia State National Flood Insurance Program (NFIP) Coordinator, shared that the quick guide rollout has been going well. The guide is distributed at all community visits and has been received by roughly 100 people.
 - He explained that the quick guide is a tool for floodplain managers to help make their jobs more efficient and easy to understand. It contains brief excerpts from the floodplain management process from carrying out mitigation actions to determining if properties are in the floodplain.
- Strengthen trainings, hone messaging at trainings, and improve outreach efforts
 - Kevin Sneed shared that West Virginia has had a variety of trainings over the last year, including a substantial damage training and an insurance agents' training.
 - On the outreach front, the State just confirmed a contract to utilize 18 billboards statewide for messaging about flood insurance and Preferred Risk Policies. Additionally, a flood model simulator is being presented all over the State and has been covered by local media.

The group discussed additional successes in the State, including:

- The State is working to align its priorities with the Governor's new Hazard Mitigation Grant Program priorities. In many instances, they are conducting projects on water, mitigation reconstruction, and elevation for the first time.
- The State is also piloting a project that uses machines to alert the public when there is a disaster approaching. The project can also be used to show messages about flood insurance.
- The WV Division of Homeland Security and Emergency Management moved to a new building and has been planning multiple trainings and one-on-one meetings.

To wrap up the discussion on the past year's progress and focus on next year, Terence Milstead asked the group the following questions:

- Are the three priorities from last year still important?
 - The group collectively agreed that the previously identified priorities would remain.
- Are there other priorities that have emerged since last year that need to be added to the list?
 - Brian Penix said that transferring risk reduction responsibilities to the SRO should be prioritized, since the SRO was set up by the legislature and has the authority to require mitigation actions.
 - Kathryn Lipiecki suggested merging the conversations and priorities of the NFIP Coordinator and State Hazard Mitigation Officer with the SRO. Anyone involved in floodplain management, resiliency planning or mitigation planning should be involved.
 - Carrie Robinette echoed that there is a need to bring additional agencies, like West Virginia University (WVU), the SRO, and the West Virginia Conservation Agency, into the conversation.
 - Amy Pauley noted that a concrete priority for the State would be to develop a set of standard data requirements from local HMPs to incorporate into the State HMP. Currently, there is inconsistency across plans.
 - Brian Penix noted that to do this, we need to find the source of applicable data and then pull from a standard dataset.
 - Kurt Donaldson, WVU, agreed that data and risk assessments need to be consistent. In West Virginia, it is useful to see dashboards to ensure community boundaries and resources are correct and available.

Terence Milstead wrapped up his questions by circling back to newly identified priorities. The survey that was distributed prior to the meeting identified the need to strengthen meetings as the top priority for the State, and the group shared insights:

- Kevin Sneed said that West Virginia has strong meetings and has come a long way.
- Rich Sobota agreed that the Floodplain Management handout and West Virginia Flood Pool are strong and serve communities well.
- Kathryn Lipiecki asked if a new focus should be on providing additional information about mapping efforts.
 - Kevin Sneed said that it definitely should be – the State is kicking off more projects than ever, and it may be a good idea to dig into the messaging surrounding mapping projects.
- Amy Pauley mentioned that there is a need to bring training to local leaderships on putting together resiliency plans.

- Bob Pierson said that there needs to be project-related specific outreach, such as distributing dashboards.

To further structure the new priority, the group broke it down into the following categories:

What: Conduct outreach specific to communities and projects that publicizes existing data within the West Virginia Hazard Mitigation Flood Tool.

How: Utilize existing outreach opportunities, such as insurance conferences and listservs, to reach communities and increase visibility of data. Additionally, leaders of the project will determine key message points.

Who: SRO, WVU, FEMA

To bring the conversation back to hazard mitigation planning, Kathryn Lipiecki asked the group to discuss priorities within the newly adopted West Virginia HMP and see how they relate to priorities discussed today.

- Brian Penix noted that there were considerable changes to the State plan, and that it will contain an executive summary outlining mitigation activities in the State with the SRO as a lead.
- Kathryn Lipiecki suggested including communities that have participated in mitigation activities in the plan and upcoming meetings to demonstrate successful action. Success can be measured by loss avoidances or number of claims reduced, for example.

To wrap up the meeting, Terence Milstead asked the group if they would be open to moving the 2019 Risk Reduction Consultation that was previously targeted for November 2018 to February 2019 for broader participation. They agreed to meet in February of 2019.

Closing Remarks

Kathryn Lipiecki provided closing remarks and adjourned the meeting.
